ABOUT THIS SERIES

The *Holy Nativity Patristic Library* presents the foundational texts of the early Christian Fathers in carefully typeset pocket editions. Each volume is drawn from the public-domain English translations of the *Ante-Nicene Fathers* and the *Nicene and Post-Nicene Fathers* – the thirty-eight-volume collection edited by Philip Schaff and his collaborators between 1886 and 1900, which remains the most comprehensive English-language gathering of the patristic writings ever assembled.

We have undertaken to issue these works one at a time, as portable single-author editions, so that they may travel where the original folio volumes cannot – in a coat pocket, on a long flight, beside a hospital bed. Each volume preserves the Schaff translation and the translator's introduction. The foot-

note apparatus is retained where it serves the text; we have set aside those notes that pertain only to the nineteenth-century volume context, and any commentary at variance with the Orthodox confession of the Fathers themselves. We add a subject index and a scripture index for the text in hand.

The texts are typeset in IM Fell English, a face cut by John Fell in seventeenth-century Oxford and freely available again through the work of Igino Marini. The Greek is set in Philokalia, designed for the Athonite tradition.
